per ton of 2,000 pounds	120 30
of 275 pounds	\$2,081 00
per ton of 2,000 pounds	42
of 275 pounds	42

LEDOUX & RICKETTS.

ARIZONA SAMPLING COMPANY.
Our General Manager recently shipped out for us from our mines to Kinzner, A. T., a sample of ore for assay. The assay company treating the same, together with the assay report, is herewith forwarded. We will show the next amount received the above of ton of ore.

OFFICE OF THE
ARIZONA SAMPLING COMPANY,
CITY OF PHOENIX, ARIZONA.

BUSINESS STATEMENT.
The Guinness has recently had five tons of iron which had been carefully culled at the mill and returned to the mine. The iron was picked up by the mill and returned to the mine. This was purely refuse ore. The iron was picked up by the mill and returned to the mine. This was purely refuse ore. The iron was picked up by the mill and returned to the mine. This was purely refuse ore.

the within the next thirty days, and it is confidently expected that the plant will be in operation within ninety days thereafter. Every promise of a dividend on the share in the next winter. The mill can be ready day in the year.

It is the confidence of mining men in this that shares are already selling at PAR to a who know what they are about.

For further information and prospectus, apply to the Secretary, Room 40, Le Droit Building, Washington, D. C.

LEDOUX & RICKETTS.

Arizona Sampling Company.
The General Manager recently shipped out
of ore from our mines to Kingman, A. T.
reduction. The following certificate from
company treating the same, together with
letter of the Superintendent enclosing
will show the net amount received
the aforesaid ton of ore:

OFFICE OF THE
ARIZONA SAMPLING COMPANY,
KINGMAN, MOHAVE CO., ARIZONA,
Aug. 12, 1884.

Sir: Inclosed you will find a certifi-
of assays upon lot No. 282, and also
in settlement of the same for \$183.75

was bought upon the basis of 90 per cent assay value of silver at the market and \$18 an ounce net for the gold, deduct 25 for freight and treatment, insurance, &c.,

W. J. CHAMBERLAIN,
Per E. C.

the above was average ore from the mine.

BUSINESS STATEMENT.

The Company has recently had five tons of ore which had been carefully culled and assayed showing free gold, milled by the United Electric Mining and Milling Company.

tion. That was purely refuse ore. This shows that even the refuse ore of this mine can be mined and milled at a profit of \$60 per cent.

A mint at Philadelphia determined that the ore off 7 and 8-100 ounces of bullion from one ton to be \$66.92.

The company, being so well satisfied by the results and numerous other strictly reliable sources of the richness of this mine, they have leased a Wiswell 50-ton crushing mill with a motor, boiler, and all necessary tools and appliances for successfully working the mine on a small scale. There will be on the ground a mill within the next thirty days, and it is confidently expected that the plant will be in

operation within ninety days, and a
every promise of a dividend on the share
in the next winter. The mill can b
every day in the year.
